

CHAPTER V

CONCLUSION AND SUGESSTION

This chapter consist of two section, the first section deals with the conclusion of findings of the research and the second deals with suggestion.

5.1 Conclusion

Based on the findings and discussion of the previous chapter, the researcher conclude that the students interest in learning English in the implementation of the Merdeka Curriculum at SDN 8 Makale showed results of 81% and was included in the " High" category.

5.2 Suggestion

Based on the results of data analysis and conclusion, researcher would like to submit several suggestion as follow:

A. For teacher

It is expected for teachers to use various media, models, and learning approaches to make students more responsive quickly, easier to understand lessons, and able to apply little by little words in English in everyday life. This would ensure students' interest in English remains high and learning goes better.

B. For students

Students are expected to continue to maintain their interest in learning English.

C. For further researcher

It is expected that researchers who will examine interest problems at SDN 08 Makale would explore more in the form of interviews or by conducting PTK research related to students' learning interest in English subjects in each class to measure the development of children's learning interest so that it develops to a better stage.
